

- ◆ Best Practice Project Management Approach
- ◆ Requirements Processes that Contribute to Project Success
- ◆ Project Planning and Monitoring Systems and Templates
- ◆ Mentoring and Consulting for Effective Project Execution

LB Associates helps its clients improve project performance by **addressing major project challenges:**

- Scope definition
- Senior management support
- User participation

Lou works with clients to clearly define project scope, break the scope into manageable units and establish systems to monitor project performance.

Clear, transparent negotiation of all aspects of scope with management is critical to project success. Involving users early in the project and keeping them involved during the whole project will increase the likelihood of satisfying their needs and ensuring ultimate project success.

Let LB Associates help you:

- **Train staff**
- **Define project scope**
- **Gather and analyze requirements**
- **Monitor and control execution**

Make your next project a successful one. Build the skills of your team to successfully execute projects on time and on budget.

LB Associates

LB Associates improves project management results by identifying requirements, training and mentoring staff, and designing systems and forms to plan and monitor projects.

Lou Bergner, owner of LB Associates, has more than 30 years of management and experience, working with major companies and non-profit organizations in 4 countries. Lou adds strong project management and business analysis training and experience to his management skills.

He has an international reputation as a trainer and speaker, who has developed the capacity of students and audiences to implement best practice in their approach to requirements gathering, and project management processes.

Lou has provided staff training for major corporations in the US and Canada, including Citicorp, Citibank and the Pan American Development Foundation.
